**Gregory A. Bird,
President & Owner**

Greg Bird is president and owner of Jetta Operating Company, Inc. headquartered in Fort Worth, Texas. Greg founded the company in 1991.

After graduating from Texas A & M University in 1982 with a B.S. degree in petroleum engineering, Greg worked for Hunt Energy Corporation and then Cawley, Gillespie & Associates, eventually becoming partner. He worked in areas of reservoir engineering, reservoir management and economic analysis.

Greg is a registered professional engineer in the state of Texas and a member of the Fort Worth Chapter of the Society of Petroleum Engineers. He also serves as a board member of several organizations including the Texas A&M University Petroleum Engineering Industry Board, TCU Energy Institute, Longhorn Council - Boy Scouts of America Foundation and the Botanical Research Institute of Texas. Greg was the 2010 - 2012 president of the Longhorn Council, Boy Scouts of America and is the past president and a current member of the Petroleum Club of Fort Worth. He is also a member of the Dallas Petroleum Club, Fort Worth Air Power Council and several professional organizations including the Texas Oil & Gas Association and the Fort Worth Wildcatters. Additionally, he is involved in other community and philanthropic efforts through the Gregory A. and Laura E. Bird Foundation.

Company Overview

Jetta Operating Company, Inc. is a privately held oil and gas company founded in 1991 and headquartered in Fort Worth, Texas.

Jetta operates more than 1,000 wells in four predominant areas of concentration: Texas Gulf Coast, Delaware Basin of West Texas, Southern Mid-Continent region of Oklahoma and Texas, and Appalachian Basin in Eastern Kentucky.

The Appalachian properties maintain a field office in Hazard, Kentucky and comprise Jetta Operating Appalachia, LLC which is a wholly owned subsidiary of Jetta Operating Company, Inc.

Jetta's focus is on maintaining and growing reserves by exploiting opportunities that present from detailed reservoir analysis and through the drill bit. In addition, Jetta is consistently looking for new acquisitions and opportunities that complement its growing property base.

The Oil and Gas Financial Journal has listed Jetta Operating Company, Inc. in the top 50 U.S. private E & P companies based on operated production in the United States.

Our philosophy has and will remain the same...

Jetta was built on a foundation of integrity, honesty, scientific principle, creative applications and hard work. Using advanced technologies and decades of combined experience, our constant goal is the acquisition of proven reserves and the continued successful exploitation of those properties while seeking new opportunities.

Our strategy, however, is in constant forward motion...

We continually review the basics and look beyond the obvious for development opportunities.

“At Jetta, we measure our success by the steps we take to get there – the way we conduct ourselves on a daily basis. We value and respect our industry partners, the environment and the communities where we live and work. This is truly a team effort and we are very fortunate to have such talented and dedicated employees who care about getting the job done right.”

- Greg Bird, President
